TECHNICAL NEWSLETTER NO. 4 - 2025

Subject: New PT-MAP Cod. **DE802141**.

Dear Customer

We'd like to inform you that very soon we will introduce a new **PT-MAP** sensor, visually very to the current sensor, but with different technical characteristics, as per below information.

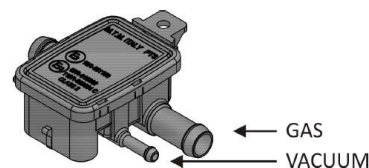

Part Number: **DE802141** (5.5)

Product name: **PT MAP**

LPG Homologation no.: E13 67R01*0262

CNG Homologation no.: E13 110R00*0084

Technical Data Sheet	
Working Temperature (°C)	-40 - +120
Working Pressure (GAS (bar)	0.2 – 5,5*
Working Pressure (MAP) (bar)	0.2 – 2.5
Temperature Sensor (kΩ)	10
Gas Pipe holder diam. (mm)	12
Vacuum Pipe holder diam. (mm)	5

***the GAS pressure sensor has a reading value of maximum 5.5 bar, against the 4 bar of the current/old version.**

How to recognize the NEW sensor?

Selection of the Sensor in the Calibration software

From the menu, select **"Type of kit"**.
Open drop-down menu **"P1-TGAS Sensor"**
and select **"WFS PT MAP (5.5)"**

... and in the drop down menu item **"Sensore MAP"** select **"integrated MAP"**.

We hope you find the above information exhaustive, but in case you require additional clarifications, please do not hesitate to contact our Technical Department through the **SUPPORT CENTER** (ticket on-line), available on each Westport Fuel Systems Italia's individual brand website.

Kind regards

Direttore R&D
Jeroen Visscher
